OBJECTIVE

Detail-oriented Computer Science graduate with a strong software development background, seeking to contribute to a dynamic team as a Graduate Software Engineer. Aiming to enhance skills and gain practical experience through a two-year graduate program at a global FTSE 100 software firm, with a focus on delivering high-quality software solutions.

WORK EXPERIENCE

Python Full Stack Developer Intern

Blackbucks Education Pvt Ltd | May 2024 – July 2024

- I worked on creating and maintaining full-stack applications using tools like Python, Django, HTML, CSS, JavaScript, and SQL.
- I got valuable experience with backend development, managing databases, and designing the frontend.
- I finished my tasks on time while keeping the code quality high.
- Through this role, I showed motivation, problem-solving skills, and a willingness to learn.
- I was involved in various parts of the development process, including debugging and adding new features.

PROJECTS

1. Django-Based Online Course Selling Platform (Internship)

- Tech Stack: Django, Python, HTML, CSS
- Developed a secure platform for selling online courses like Python and Java with a user-friendly interface.
- Implemented role-based authentication to enhance security and access control.
- Designed a structured database to streamline course and user management.

2. Building Portfolio Website With Bootstrap

- I set up a simple portfolio website using Bootstrap. The site is easy to use and its design focuses on skills, projects and achievements in a manner befitting that kind of work with elegance.
- Responsive Design – Enjoy a consistently smooth user experience across all devices.
- Bootstrap Framework – Utilise Bootstrap components and grid system for a beautiful, clean layout.
- Interactive UI – Hassle free navigation, with the odd bit of eye candy animation to enhance user interaction.
- Project Showcase – Full details of projects including images, links and the technologies used.

EDUCATION

Bachelor of Technology , Geethanjali Institute Of Science & Technology (JNTUA) AP. Computer science engineering – 75%(Present)	2022-2025
DIPLOMA , Government Polytechnic College, Nellore. Mechanical Engineering – 75%	2019-2022
SSC , Z.P.P High School SGPA:7.7(10)	2018-2019

SKILLS

Languages	:	Python
Web Stack	:	HTML, CSS, Bootstrap.
Framework	:	Django(Basics)
Database	:	SQL(Basics)
